

P-Series PBX System Cloud Edition

A full-featured cloud PBX & UC solution that can support onsite, remote, and mobile workers.

Meet your everyday communication needs, from making & receiving calls anywhere, to maximizing agent productivity, empowering interactive video conferencing, and much more. P-Series PBX System provides a Cloud Edition to help today's increasingly dispersed organizations stay connected and engaged. With both business customers and service providers in mind, it strikes the perfect balance between offering best-of-breed UCaaS and easing deployment and operation complexity. A whole new landscape of cloud opportunities is open up.

Unleash the Potential of Cloud Communications

The trend to the cloud is almost universal. Its flexible environment offers a faster-than-ever way for businesses of all sizes to take advantage of an array of enterprise-grade communications capabilities with simplicity and ease.

Voice, Video, Applications, Collaboration in One Experience

Include the full span of UC tools in your company's arsenal. As a "PLUS" solution, P-Series Cloud Edition brings all your communications together, from must-haves to the nice-to-haves, for your entire team with optimized experience built for everyone.

Any Device, Anywhere

Seamless experience and full access to business features via Linkus Web, Mobile, and Desktop Clients.

Face-to-Face Meeting

Integrated web-based video conferencing and screen sharing for collaborative conversations.

Happier Customers

Advanced Call Distribution, agent & supervisor portal, dynamic wallboard, and insightful reporting.

More on the Web

Make web-based audio & video calls. Enjoy call pop-ups and click-to-call enabled by the Chrome Extension.

Contacts Directory

Manage enterprise and personal contacts across Linkus UC Clients, IP phones, and the PBX.

Open & Interoperable

Working perfectly with IP phones, SIP trunks, CRM, MS Teams, and more 3rd-party systems.
